EXPERIENCE

AppLinkd, BGC— *Mobile Developer (Freelance)*
July 2020 - current part time

Developing mobile applications that caters the need of hotels and condominiums. I use Flutter and firebase as my primary stack.

Hoppler PRO, Makati City— *Frontend Developer*
January 2020 - current full time

Maintaining and improving existing web pages and applications developed using React, Angular, Typescript and Node. Create new MVP if business requires us to launch a new product.

Collabera, Makati City— *Application Developer*
August 2019 - January 2020

I was deployed in AXA Philippines. We maintain websites and improve existing pages. We implement Agile Methodology and use AngularJs/Angular, NodeJs and .NET as primary stack.

ITMG Enterprises, Calamba City— *Designer / Web Developer*
June 2018 - August 2019

I provide marketing materials and design in general. We develop web-based applications primarily for schools, startups and clinics. We use a lot of React, Node, PHP, some JQuery, and MySQL as primary stack.

Alltel Asia Pacific, Makati City— Jr. SEO Coordinator
October 2017 - January 2018

My primary tasks are deep competitor's analysis, on/off-page SEO, link-building, PPC, Adwords and keyword research. We also implement Agile Methodology/Scrums.
